

THE BAND AND OUR SHOW

American Heart is Owls & Lions' celebration of the music that connects generations, where Americana, country, folk, rock and indie meet on the same stage. Built around fiddle, guitars, rich harmonies and powerhouse live-band energy, the show brings iconic songs audiences have loved for decades together with the artists carrying that sound forward today.

From Fleetwood Mac and Tom Petty to Chris Stapleton, The Lumineers, Zac Brown Band, Noah Kahan and more, familiar songs get the unmistakable Owls & Lions treatment: organic, energetic and made for a live room. The result moves easily between timeless favorites and the sounds shaping Americana today.

More than a collection of great songs, American Heart is about the stories, melodies and shared moments that make this music endure. It's a show where generations sing along together, discover something new and leave feeling part of something.

One band. Generations of music. One unforgettable night.
